Here's Some Paint
Pointers That
Will Save You
MONEY

Don't Buy a Gallon of House or Barn Paint Till You See My Money Saving Prices

If you are going to paint your house, barn or outbuildings you will save a lot of money by turning to the paint pages of my catalog and see the unheard of prices I am quoting on my famous "Wearbest" brand of House and Barn Paint.

You can't make a better investment than to protect your buildings with Wearbest Paint—a few dollars spent for paint means added life and less repair expense on your buildings to say nothing of the added value from the appearance standpoint.

**WEARBEST PAINTS
ARE GUARANTEED**

HERE'S WHAT MY CUSTOMERS THINK OF "WEARBEST" PAINT

I am very much pleased with your paint. Two painters examined it and praised it. It was easily applied as it was already so well mixed. It makes a good appearance. People passing compliment it. On the 11 gallons I saved 6 dollars by buying from you, not counting freight I would have had to pay from a near by town. I take pride in telling people of whom I purchased the paint.

*Mr. T. W. Cunningham,
Stovall, Ga.*

Don't Buy a Gallon of House or Barn Paint Till You See My Money Saving Prices

If you are going to paint your house, barn or outbuildings you will save a lot of money by turning to the paint pages of my catalog and see the unheard of prices I am quoting on my famous "Wearbest" brand of House and Barn Paint.

You can't make a better investment than to protect your buildings with Wearbest Paint—a few dollars spent for paint means added life and less repair expense on your buildings to say nothing of the added value from the appearance standpoint.

WEARBEST PAINTS ARE GUARANTEED

When I decided a few years ago to heed the request of many of my customers to supply them GOOD Paint on the same Money Saving Direct From Factory Plan, just as I was doing on Fence, Gates, etc., I first of all went into the question very thoroughly. I investigated many different brands of paint on the market and I found there was a big difference in paint—I found there were many paints on the market that were of very little value as far as protection to buildings was concerned—they were simply colored preparations made to SELL AT A PRICE.

I decided then that I would put out a grade of paint that would be of the same high quality as other products that bear the name of Jim Brown—hence "Wearbest" Paint, and I assure you it is everything its name implies—paint that wears better and costs less.

I make it so good that every gallon is guaranteed.

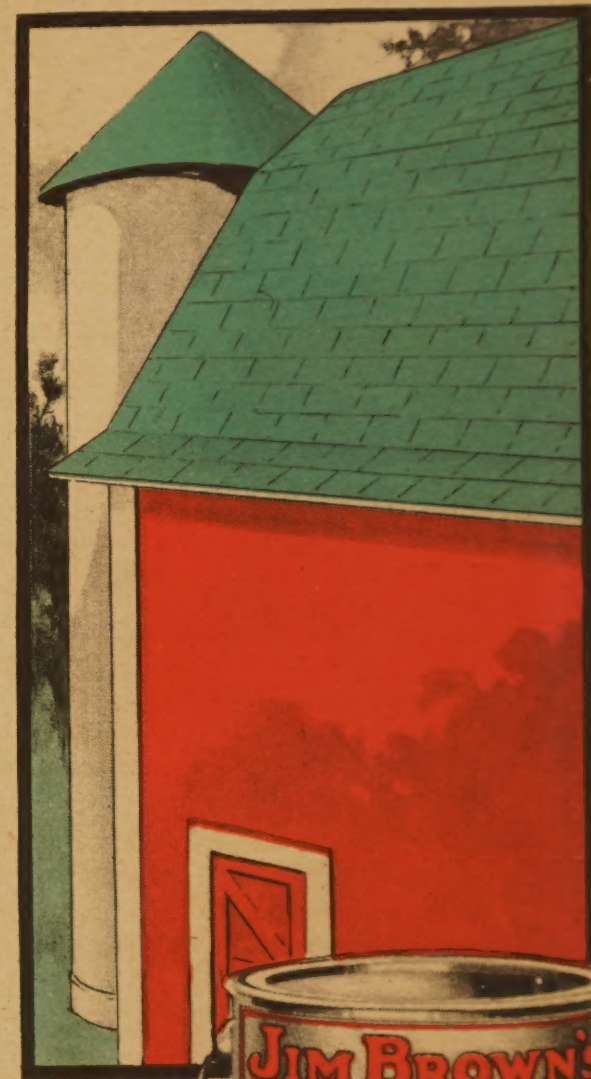

HERE'S MY GUARANTEE

When you buy House Paint from Jim Brown, you buy it with the same strong guarantee that you do our other products—that you get full value for your money and that the quality of paint is exactly as represented or money back. If you are dissatisfied as to the quality after applying a portion of any House Paint purchased from us, or even after you have applied all the paint, we will refund your money or supply you with new paint, free of charge, providing you have followed our directions in applying the same. Jim Brown's name on the package is the strongest guarantee I can give.

JIM BROWN.

This Guarantee is your protection—it means just what it says—satisfaction or your money back. See the paint section of my catalog—see how I have made it possible for you to buy GUARANTEED PAINT—the best paint money can buy at a big saving, simply by ordering direct from my factory and saving the added cost and expenses of middlemen.

THE BROWN FENCE & WIRE CO. *Cleveland, O.*

Stop The Leaks IN YOUR Old Roofs

If any of your roofs are beginning to show wear—if they have started to leak, you can make them just as good as new with Jim Brown's Roof Saver, at a very small cost.

Jim Brown's Roof Saver is an elastic, asbestos covering, that costs little more than a coat of ordinary paint, yet one coat of Roof Saver is *equal in thickness to 10 coats of paint*—and is practically indestructible.

Brown's Roof Saver comes ready to use—no mixing or thinning necessary—you apply it just as it comes from the container—put it on with a brush just like paint.

It is the finest kind of protection against the destructive action of hail, rain and snow and also against the burning hot rays of the summer sun. Don't compare Brown's Roof Saver with its indestructible *Asbestos* base with other cheap tar compounds that will melt

in the sun and offer little protection. Brown's Roof Saver is a *Quality* product, cheaply priced.

Brown's Roof Saver can be applied to any kind of roof—felt, slate or composition roofing and makes them waterproof and weatherproof—it stays just where you put it and stands up through all kinds of weather conditions.

Like everything else that Jim Brown sells, Roof Saver is guaranteed. If it does not do all I claim for it and if you are not perfectly satisfied, I will make good.

See My Catalogue For Low Factory Prices.
